

QB POS v12 New Features April, 2015 QB POS v12

We will look at some of the new features QB POS v12. We will concentrate on using **Windows** in QB POS.

1. We will start by going to **Make a Sale** and starting a sales receipt..

2. Next we will Click on Inventory on open the Item List.

The screenshot shows the 'Item List' window with the following data:

Item #	Item Name	Department	Vendor Name	Item Description	Mobile	Attribute	Size	Regular Price	O/H Qty	HQ	O/H Qty	REM	Cmp Qty	On Order	Alternate Lookup

4. We now have three Windows open. **Click on the Windows Button**, and you can jump between the open Windows (note: that the Window you are in is not in the list.).

5. You can also Close All Windows from here.

Below are the other New Features in QB POS v12:

QuickBooks Point of Sale - What's New in Desktop 12.0

This article highlights key improvements made for the release of QuickBooks Point of Sale Desktop 12.0.

Detailed Information

"Help me get started. I'm totally new to Point of Sale."

QuickBooks Point of Sale Desktop 12.0 is smarter, faster and better than ever! To learn how to get started check out our Point of Sale Desktop 12.0 User Guide! This guide provides all the steps to

- Installing
- Setup
- Connecting Hardware
- Setting up Inventory
- Importing Data
- Navigation, and much more.

Easily access and print the User Guide within Point of Sale by choosing **Help > User Guide**.

"QuickBooks Point of Sale Desktop 12.0 seems faster?"

Yes it is! We have made improvements to the speed in startup of QuickBooks Point of Sale Desktop 12.0 and the opening of lists such as the Item or Customer list. We have also improved the Inventory Item History window. Now the entire Sales History for an inventory item can be seen from the Item or Customer List, adding ease to re-ordering items for customers and allowing the full history of its sales to now be visible!

"Can I multitask between windows in QuickBooks Point of Sale Desktop 12.0?"

Glad you asked - Yes you can!

Now you can open multiple windows at once and toggle between them. For example you could open a customer list, item list, department list, view an report, make a sale and not close any of the windows, then go back later!

"What about my daily tasks?"

We have made improvements to many of your daily Point of Sale tasks, including:

- Easier to read screens
- Crash proof technology that helps you complete your tasks.
- You can now sort columns in a Sales Receipt or Voucher
- You can use keyboard shortcuts on Sales Receipts or Purchase Orders

What about Reconciliation?

If you have **Intuit Merchant Services** and **QuickBooks Financial Software version 2015**, you have better than ever auto-reconciliation in QuickBooks Point of Sale Desktop 12.0.
