

Making the Retail Pro Main Menu be an Employee Reminder List

1. Using Microsoft Word, create a document
2. Save it as an HTM (HTML) Document on the same network Drive that Retail Pro runs from.

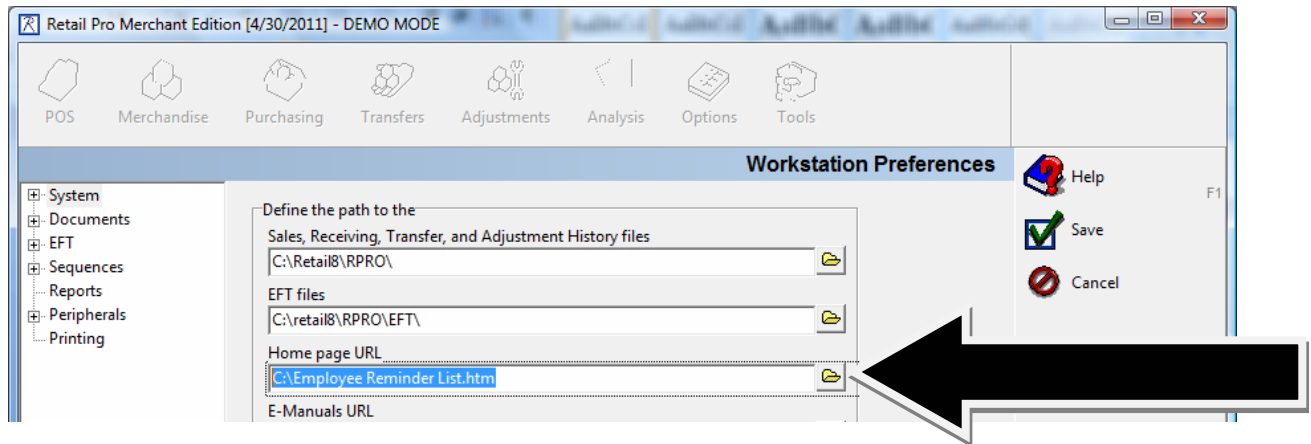

3. Point Retail Pro towards the new file!

Note: this must be done per Workstation

V8: Select Options > W/S Preferences > Home page URL

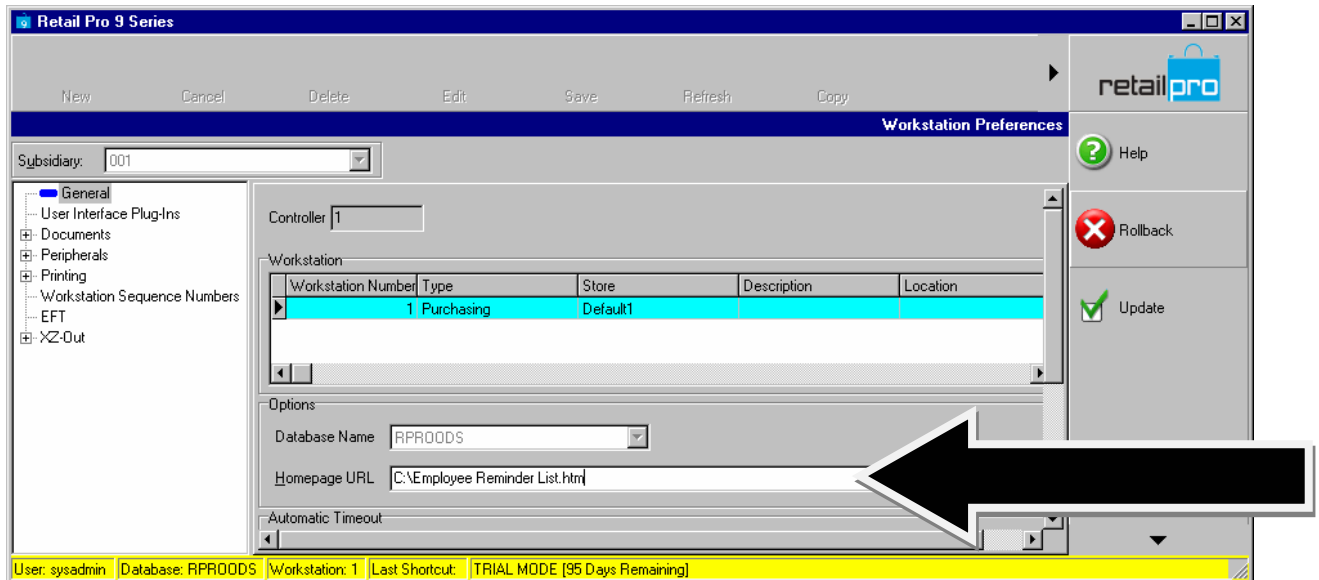

Note: If you browse for the file, remember to set the FILES OF Type to **ALL FILES**

Select Save when finished...

V9: Select Options WS Preferences Homepage URL

Note: If you browse for the file, remember to set the FILES OF Type to **ALL FILES**

Select Save when finished...

4. Open the document with Word and edit it as needed.
The next time Retail Pro is opened I will display the new page!
